MELISSA BAUGHMAN, SUPERINTENDENT

August 6, 2025

Dear Robin Hill Families,

At Robin Hill Public School, we believe no child should go hungry while in our care. Providing access to nutritious meals is essential to helping our students grow, learn, and thrive.

The National School Lunch Program continues for the 2025–2026 school year. Each year, families must complete a Free and Reduced-Price Meal Application Form and meet federal income guidelines in order for students to receive meal benefits. Paper applications are available in the school office and in the classroom on Meet Your Teacher Night.

We kindly ask every family, regardless of income, to complete this application. Doing so helps us qualify for important federal programs and funding that support all students.

Here's how the program works:

- Families who meet income eligibility for free meals will continue to receive them at no cost.
- Families who qualify for reduced-price meals will pay the reduced rate.
- Families who do not qualify will pay the standard school meal price.

While some have heard that all public schools in Oklahoma will provide free meals to every student this year, please note that Robin Hill is not participating in universal free meals at this time. We are exploring future options and working hard to ensure our budget can sustainably support our students' needs without cutting vital programs or services.

Thank you for your continued partnership. **Please complete the Free and Reduced-Price Meal Form on Meet Your Teacher Night.** By doing so, you are helping our school maximize resources and support all students.

Sincerely,
Melissa Baughman
Superintendent
Robin Hill Public School
